

Team: Code Brigade

1. Go to this link : <https://colab.research.google.com/notebooks/intro.ipynb>
2. Go to **Files**. Click on **Upload Notebook** and choose this file Customer_Interaction_with_Store_layout.ipynb.
3. Click on directory Option on left side. Right click below sample_data and click on upload and select **yolov4-deepsort-master.zip** to upload it on google colab

4. Now once the zip is uploaded on colab. Run Command 1 to unrar the uploaded file and follow further steps as mentioned in Colab repository.
5. Final csv outputs for the 4 test videos are stored in **Final CSV outputs** folder.
